THE WILCOX & GIBBS' SEWING MACHINE,

SEWING MACHINES.
LANGLEY & NORMAN would inform the citizens of Newport and vicinity, that they have been appointed agents for GROVER & BAKER'S CELEBRATED SEWING MACHINES, and that they are now prepared to furnish Manufacturing or the Improved Family Machines, at Manufacturers prices.
We would invite especial attention to the IMPROVED SHUTTLE MACHINE, it being very simple, not liable to get out of order, uses a straight needle, runs with great speed, and makes the stitch alike on both sides. Though made expressly for TAILORS AND SHOE BINDERS, it is found to be as well, if not better, adapted to the general work of a family as any machine that has yet been invented. These machines are sold for $50, though capable of doing any work that can be done with any of the $100 Sewing Machines. apd1f

A NEW MUSIC BOOK,
OR THE
New York Musical Review,
FOR NOTHING!
We have in press, and shall publish in October, "ASAPH, OR THE CHOIR BOOK;" a new collection of Church Music for Singing Schools and Choirs, by Dr. LOWELL MASON. Dr. MASON'S last similar work, published in 1855, reached the enormous sale, in its first year, of over 54,000 copies, which is, we are confident, the largest sale ever enjoyed, in its first season, by any Church Music Book by a single author. The work now in press will embrace nearly all new matter, culled with great care from numerous sources, such, as it is believed, will be of the highest interest to Choirs and Singing Schools. Its Singing School Department is more extensive and complete than in any previous work, being, indeed, a complete work in itself, and forming an extensive collection of secular music, the words, as well as music, to which, are nearly all quite new. Retail price, one dollar.
We publish, also, THE NEW YORK MUSICAL REVIEW, a fortnightly journal of sixteen quarto pages, including four pages of choice music in each number, with twelve pages of reading matter, including frequent articles from the leading musicians of the country, with all the musical news, &c., &c. Subscription, $1,00 per annum.
In view of the present hard times, and with the purpose of obtaining a wide circulation for specimen copies of Dr. MASON'S new work, we are induced to make the following liberal offer, viz.. To every one sending us, before 1st November, one dollar, (the price of subscription to the REVIEW,) we will furnish the paper for a year, and also, as soon as issued, a copy of Dr. MASON'S new work above announced, thus giving two dollars' worth for one. Those desiring the book sent by mail, must inclose twenty-four cents, to pay postage, in advance.

A CHALLENGE AND A REWARD
$500 REWARD.
I BEG LEAVE to inform my friends and the community, that from recent arrangements made by me, I NOW offer the above reward in good faith, which shall be paid in cash to any chemist or physician, of good and responsible standing in this State, who, on due analysis and satisfactory evidence, can find anything in the BRANDIES, WINES, GINS, &c., &c., NOW for sale by me as pure, other than is found in all PURE, GENUINE and UNADULTERATED ARTICLES.
Knowing, from experience, that our citizens in general labor under the impression, with good cause, that pure Liquors cannot be had, I, after much pains, studious investigation, and from the reliable source with whom I NOW contract for my supplies in these articles, do stake my reputation as a man, my integrity as a merchant, that if the liquors NOW sold by me as pure "are not so," then none can be had from the vineyards in France, or from any part of the world. As a proof of my sincerity, I challenge chemical contradiction, and invite all to come and test for themselves, when they will learn that NOW, "if never before," pure liquors can be purchased in Newport, by bottle or measure, for medicinal or family purposes, as cheap as in any other place in these United States.
WM. ALDERSON,
Newport, R. I.
N. B.—The main inducement for all to give me a call is, that my figure for the genuine article is rather less, than more, than is NOW charged for the handsome labeled bottled compounds so extensively sold all over the country. s13

TO JOHN C. FREMONT.

BY WOODBURY M. FERNALD.

Hold on, Fremont! there's no more magic name
On all the mighty roll of present fame,
To stir the nation's heart, and break its sleep,
Than is thy sacred privilege to keep.
It is a name to conjure with and hope,
Lo, at thy touch the heavy doors should ope,
Where groaning prisoners in their bondage sigh,
To break their chains—this war to glorify!
March on, march on, nor heed the leveled aim
Which politicians take at thy fair fame;
Correct all errors, humbly own thy faults,
And know, defiant of the world's assaults,
Thine was the word which roused the nation's ear,
The word prophetic for the foe to hear.
As when of first upon the mountain's peak,
The path to which thy patriot steps did seek,
There to unfurl the banner of the free,
For all the land a glorious prophecy,
So now again, when war's dread tumult breaks,
And o'er the land its awful thunder shakes.
First on the heights of Freedom thou art found,
To do, and dare, and liberate the bound.
PATH-FINDER yet, we all shall follow thee,
A nation saved, and led to victory!

LOVE A WIFE AND CARE FOR A WIFE.—I wish every husband would copy into his memorandum book this sentence, from a recently published work: "A word said a line written, and we are happy: omitted, our hearts ache, as if for a great misfortune. Men cannot feel it or guess at it; if they did, the most careless of them would be slow to wound us." The grave hides many a heart which has been stung to death, because one who might, after all, have loved it after a certain careless fashion, was deaf, dumb and blind to the truth in the sentence we have just quoted, or, if not, was at least restive and impatient with regard to it.—Many men, marrying late in life, being only accustomed to take care of themselves, and that in the most erratic, rambling, exciting fashion—eating, drinking sleeping and waking, whenever their fancy or good cheer and amusement, questionable or unquestionable, prompted—come at last, when they get tired of this, with their selfish habits fixed as fate, to matrimony.

For a while it is novelty. Shortly, it is strange as irksome, this always being obliged to consider the comfort and happiness of another. To have something always hanging on the arm, which used to swing free, or at most, but twirl a cane.—Then they think their duty done if they provide food and clothing and refrain (possibly) from harsh words. Ah, is it? Listen to that sigh as you close the door.—Watch the gradual fading of the eye, the paling of the cheek, not from age—she should be yet young—but that gnawing pain at the heart, born of the settled conviction that the great hungry craving of her soul, as far as you are concerned, must go forever unsatisfied. God help such wives, and help them from attempting to slake their soul's thirst at poisoned fountains.

Think you, her husband, how little a *kind word*, a smile, a caress to you, how much to her. If you call these things childish, and "beneath your notice," then you never should have married. There are men who should remain forever single; you are one. You have no right to require of woman her health, strength, time and devotion, to mock her with this shadowy unsatisfying return. A new bonnet, a dress, a shawl, a watch, anything, everything but what a true woman's heart must crave—sympathy, appreciation, love. She may be rich in everything else, but if she be poor in these, and is a good woman, she had better die.

There are hard, unloving, cold monstrosities of women (rare exceptions) who neither require love nor know how to give it. We are not speaking of these. That big-hearted, loving, noble men have occasionally been thrown away upon such, does not disprove what we have been saying. But even a man thus situated has greatly the advantage of a woman in a similar position, because, over the needle a woman may think herself into an insane asylum, while the active, out-door turmoil, of business life is at least a sometime reprieve to him.

Do you ask me, "Are there no happy wives?" God be praised, yes, and glorious lovable husbands, too, who know how to treat a woman, and would have her neither fool nor drudge. Almost every wife would, be a good and happy wife were she only loved enough. Let husbands, present and prospective, think of this.—*London Journal.*

THE MEXICAN NEWS.

In accordance with the programme previously laid down, the allied fleet on approaching Vera Cruz was permitted to take peaceable possession of the city, and of the Castle San Juan de Ulloa, which is situated upon an island opposite to it. The Mexican troops retired from Vera Cruz after a respite of twenty-four hours, which had been accorded them.

This has been according to announcement. The Mexicans had not expected to defend their sea ports, but to withdraw into the Interior and there make such defence as they could. In this contingency it is probable that they will resist every overture which may look to an occupation of the country by Spain, and that when the principal points of redress are conceded on the part of the Mexican Government, peace will be restored by the intervention of France and England.

Rhode Island.

In this State, with about 175,000 inhabitants, there were registered, in the year 1860, 4493 births of living children, 1748 marriages and 2686 deaths, giving a ratio in the year of one birth for every 38 inhabitants, one person married in every 50, and one death in every 65. There were 102 boys born to 100 girls; the children of native fathers were about 7 per cent. more than those of foreign paternity; 36 twin cases and 2 of triplets were registered. Of the couples married, 30 per cent. were of foreign birth—a little more than the average proportion for five years past. The average age of bridegrooms was about 27 1-2 years, of brides 23 1-2. One mature maiden of 72 years secured a husband; two were between 65 and 70 years at marriage. At the other extreme were two brides of 13 and two of 14 years. Of those who died, 1295 were male, 1391 were females. The parentage of 1629 was reported to be American; of 1035, foreign; of 20, not specified. The average age at death was nearly 30 years, (29.64.) This average varies considerably—thus, in 1858 the mean age at death was 26.44; in 1859 it was 31.39. This is owing to climactic and epidemic differences in different seasons. The deaths from diptheria, for example, were 6 in 1858, 20 in 1859, and 67 in 1860.

The Hart-MacIntyre Repeating Bomb.

The third exhibition of this remarkable invention took place near Commonet Point yesterday afternoon, according to our previous notice. The severity of the weather prevented a large attendance, the spectators consisting chiefly of gentlemen taking special interest in the matter. Among them were His Excellency Gov. Sprague, Ex-Gov. Dyer, Adjutant Gen. Maurau, Quartermaster Gen. Frieze and Capt. Cutts, of the 11th Regiment U. S. Infantry.

The nine-inch mortar, used on the former occasion, was charged with two pounds of powder, was placed at an angle of about 25 degrees, and the first bomb was thrown a distance of half a mile, the explosion of the outer shell being followed by that of the two inner ones at successive distances of say a hundred feet, at intervals of a second. Two more bombs were fired with the same successful results. The fourth discharge was followed by the explosion of the outer and the middle shell, but the inner one did not explode. On the fifth and sixth discharges, all the explosions again took place.

The elevation of the mortar was then changed to forty-five degrees, and the shells reached a height and distance correspondingly increased. The seventh and eighth discharges respectively produced explosions of each of the three shells. The ninth projectile was a grenade, exploding four times, the first throwing three small shells in as many directions. This is a distinct invention of Mr. McIntyre.

The tenth time, the mortar threw a schrapnal, also of Mr. McIntyre's contrivance. In it, there is a central charge of powder, and outward of the shell thus charged is another, containing a mass of bullets. The sudden and violent disruption of this mass has a terrific effect.

The trial was completely successful, the gentlemen present uniting in that opinion. It demonstrated beyond question the deadly powers of the bomb, which must come into extensive use in war, as its possession confers decided advantages. There can be no *dodging* the second and third (or inner) shells, as their direction has sufficient regularity to render the attempt hopeless. The graduation of the fuses regulates the distance of the explosions from each other. To show the destructive capacity of these bombs, we may mention that one weighing 76 pounds, fifty-two pieces were found, weighing just half the weight, so that the whole, at the same rate, would be converted into upwards of a *hundred* missiles, scattered in all directions.—A scientific visitor, truly.

We learn to-day that so well satisfied was Governor Sprague with the test, that of the War Department at Washington. The Governor's recommendation will no doubt, as it ought, receive great consideration there, and we are glad to add that that Mr. McIntyre will manage to employ Rhode Island industry in fulfilling the contract he may be able to make with the government.—*Prov. Press, 3d.*

LETTER FROM THE FOURTH REGIMENT.

CAMP CALIFORNIA, Dec. 29, 1861.

DEAR NEWS.—That my correspondence is very irregular, is not my fault, as there are many times when I desire to set down and talk with you by letter, but duty, or the fatigus following duty, forbid. For instance, one feels but little like writing after coming from a line or battalion drill of two and a half or three hours.

But to-day is the Sabbath, and our short service is over, all is quiet, the day is delightfully pleasant, and I have been sitting in my tent, thinking of home. So as a natural consequence, I set down to write you, knowing that those we love at home are glad to hear of our whereabouts and doings.

I have not much of interest to communicate, as our life is to most persons monotonous, although to me it is all life and change. At reveille we are all turned out and expected to be in line under arms before the drum stops beating—which is four minutes. As soon as it ceases, the First Sergeants begin to call the roll, and no man is allowed to enter the line after the drum ceases. The companies will average one or two men who fail to be in line in time. The next thing in order is breakfast, followed by company drill, which occupies us from nine to eleven, then dinner. Battalion drill commences at two, continues until four, and is followed by Dress Parade and evening service.

This is our daily programme, interspersed occasionally with a false alarm at night, when we march out three or four miles and return next day, and as often as our turn comes round, varied by a four days picket duty, which has just enough of danger in it to make it interesting and desirable to the soldier.

Christmas was very pleasant to us all. We had service in the morning, and the rest of the day was given up to the men as a special holiday. There were foot-racing, pig chasing, sack races, sparring, wrestling, &c. The best part of the engagement to me, was ending the day in Col. Tow's log-hut, with a few who love music and with the old *Carmina*, Assisted by Capt. K's. violin, and Lieut. R's. Clarionett, we burried the thoughts of home in singing the good old songs of Zion. (Mem. If any persons have any "Car. Sacra's" to spare, they are invited to leave them in the City Music Store, and the proprietor thereof is invited to send them to the Fourth Regiment.)

Our Regiment is daily becoming more proficient in drill, and we are all ready—barring our old smooth bores—to go forward. For one, I do not like the idea of winter quarters. I enjoyed (?) the heat and dust of the summer campaign, and we were told cold weather was the time to do this business. Well cold weather is here, now let us do it; but he who is at the head of this army knows, I am confident, what is best, and if he says log-huts, why log-huts it is, and we will kill the rest of winter as best we can.

We have just commenced building log-huts. The way is this; we cut logs 17 and 9 feet long, and lock them together, making a room 15 by 7 feet in the clear. We build the sides up 3 feet, then take two of our wedge tents, join them together end ways and put them on the logs, making a tolerable roof. This is a house for 10 men. It is made tight on the sides by a plentiful application of mud. Let those resting on nice feather beds in large airy rooms, endeavor to appreciate the contrast, and realize the situation of the poor fellows cooped up in a log-pen 7 by 15 feet. But we get used to it after a while, and think but little of it.

A soldier's life is hard, but it has pleasures as well as pains, and one of the sweetest thoughts that cheers the soldier's heart is, that they are remembered at home.—Oh that you could see the sparkling of their eyes as the men go up to the distribution of packages from home! I assisted in the distribution of a large number of such boxes, to Company G a few days since, and could those who prepared those tokens, have seen with what delight even the smallest package is received, they would have been far more than recompensed for all their labor and expense.—As the names were called out, various would be the speeches: "Ah here are those boxes that you have been dreaming about for a fortnight Billy!" "Here's a box for Tom M——" "Bully for you Teddy." And so they go, nothing but smiles and happiness for that at least, except some one may turn off with a "by gracious, I don't see where my box is, it has been on the way three weeks."

Quite an amusing incident took place at the opening of one of these boxes. I was told a certain Lieutenant from our good old City—who by the way is a *lion* out here—had ordered a new uniform made in the old city by the sea, to be sent to him when completed. He had just received a letter stating that it was sent to him four weeks ago, when it arrived. Of course he had been looking for it with much anxiety. When it came to hand the satchel soon did its work and the uniform was laid open, the said Lieutenant proceeded to don his new attire, when lo! the coat was double breasted a *Brigadier's!* The wearers face was instantly as much longer than usual, and back went the coat into the box. I cannot portray how the mistake occurred, as it came from one of the best

[illegible] ly ordered.

Gen. Sumner's sickness continuing, our Division is temporarily under the command of Gen. Heintzelman, Commander of Division on our left. In my opinion Gen. S. will not soon take command. He has rather too many years on his head to recover rapidly from such a fall as he had.—But wherever commanded us, I hope it will be one on whom we can rely, when we come to "the tug of war." We speak of winter quarters, but we little know what is in store for us, for, ere this reaches you, the field of battle may be crimsoned with loyal blood, and the murky smoke of the contest cast a ghastly shadow over many a home. But be it as it may, let us go on when we are ready, not before, and God speed the right.

The health of our Regiment is very fair. We have a number of bad coughs, and, perhaps, eight cases of measles, but at the present time they are all convalescent.—Our hospital arrangements are now good, our Doctors are, both of them, first rate.

Please let us know where and when that Parrot-gun is mounted. B. F. Jr.

Court of Justices.

FRIDAY, Jan. 3d.

The only case called was State vs. Charles Collins, for an assault and battery upon his wife Mary Collins.

He was found guilty and fined one dollar and costs, and required to enter into recognizance, with surety, in the sum of fifty dollars, to keep the peace for six months. Fine and costs paid, and recognizance entered with Dennis Ryan, as surety, and respondent discharged from custody.

ZION CHURCH.—This Church will be open for divine service to-morrow evening at 1-2 past 7 o'clock.

How John Brown saved the Capital.—The Washington correspondent of *The Boston Journal* tells the following singular story of the way in which John Brown's lawless raid into Virginia became the remote cause of the salvation of the Federal capital:

"When the marines dashed up to the door of the engine-house, where Virginia Chivalry quaked, they seized not only John Brown but a quantity of powder within the building, which he had brought from Pennsylvania. After Brown and his party were secured, the powder was placed in one of the brick buildings, where it remained till April last. When the United States troops found that the Virginia forces were preparing to make a descent upon the ferry for the purpose of capturing the arms, they looked about for ammunition. They did not dare to visit the magazine, for there were sharp eyes which watched every movement, and an attempt to take powder from there would precipitate an attack. Then it was that John Brown's powder was valuable. It was in small packages, and where it could be taken and distributed unbeknown to any outsiders. It was placed in the different buildings, the traps were laid, and just as the Virginians thought the prize was theirs, they found that the flames were ahead of them.

It was designed that the several thousand stand of arms there stored should be distributed in Baltamore, where, as you know, the outbreak immediately occurred, and that thence a descent would be made upon Washington. So John Brown's powder saved the capital.—All of this will appear, I am informed, with satisfactory evidence, in the report of the committee appointed to investigate the Harper's Ferry affair.

"John Brown's body lies mouldering in the grave,
But his soul is marching on."

KANSAS.—Two Governors are contending for the chief magistracy of Kansas. Charles Robinson, the present incumbent of the office, contends that he is entitled to hold the reins of power another year, notwithstanding the people have elected another man, under the conviction that Robinson's term expired with the year of 1861. Mr. Crawford, the Governor elect, proposes that the claims of the contestants be referred to the Supreme Court of the State for settlement, promising to yield to the decision of the Court, But Robinson refuses the offer. Meanwhile, the people of Kansas are in a strait betwixt the two masters who claim their allegiance.

THE AMERICAN UNION.—When the British economist, Mr. Senior, wrote to De Tocqueville disparagingly of our country, the great thinker, in a way worthy of his head and his heart, replied: "The breaking up of the American Union will be a solemn moment in the history of the world; it would inflict a great wound on the whole human race."

Shipbuilding at Newburyport.—The Newburyport *Herald* states that one United States gunboat, two ships, six barques and four schooners, having an aggregate tonnage of 5900 tons, have been built on the Merrimac during the year 1861; and there are now on the stocks three ships and a barque, measuring altogether 3500 tons.

Church Blown Down.—On New Year's night, the Episcopal Church at Southport, Ct., was demolished by the violence of the gale which sprang up about sundown, increasing in fury until 12 o'clock. The steeple was blown over, and falling upon the body of the edifice, completely crushed it. The organ will probably be saved. The church was new.

FOR GEN. SHERMANS COMMAND.—All letters for regiments in Gen. Sherman's command, whether stationed at Port Royal, Beaufort, Otter Island, Tybee, or elsewhere, should be addressed to Port Royal, and will be forwarded from that Post Office to all points where troops have been sent.

A POINTED PRAYER.—The Rev. Mr Gruber, a Methodist clergyman, in the time of the last war with Great Britain, made this prayer on some public occasion:—O Lord, have mercy on the sovereigns of Europe,—convert their souls, give them saving lives and happy deaths, take them to heaven, and let us have no more of them."

WAR NEWS.

A NEW NAVAL EXPEDITION PREPARING.

BURNSIDE EXPEDITION TO GO UP THE RAPPAHANNOCK.

New York, Jan. 3.—Advices from Port Royal indicate that Com. Dupont is preparing for a new naval demonstration. The vessels are concentrating, and a large number of armed launches are practicing in the work of assisting in the landing of troops.

About ten thousand troops could be spared from Hilton Head, in addition to General Stevens's brigade, to operate against Charleston, Savannah or the rebel force at Coosawatchie. The latter most likely.

The Washington correspondent of the Philadelphia *Press* says orders have been given for a movement by way of the Occoquan; also that Burnside's expedition will probably ascend the Rappahannock.

RECEPTION TO BE GIVEN TO THE LIBERATED UNION PRISONER AT BALTIMORE.

Baltimore, Jan. 3.—Arrangements are making to give the Union prisoners, expected here to-morrow, a grand reception. There will be a military escort and our Union citizens will also make demonstrations.

THE STRIKE AT BROOKLYN NAVY YARD SLAVER ADMITTED TO BAIL.

New York, Jan. 3.—The strike at the navy yard has ended by the return of the men to work.

Pierre L. Pierce, charged with fitting out the slaveship Brutus, has been admitted to $10,000 bail.

FROM FORT MONROE.

Baltimore, Jan. 3.—The Old Point boat has arrived. The flag of truce yesterday brought no news. The prisoners from Richmond were expected at Fortress Monroe to-day.

Rhode Island Artillery.—"Perley" writes to the Boston *Journal* thus from Washington:

"Rhode Island receives high praises on account of her light artillery, which' taking her population into account, is ahead of t' at all important arm in the army in the Union, so far as numbers go."

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS.

Executive Department, Providence, Dec. 26, 1861.

GENERAL ORDERS No. 166.

The following communication from the Hon. Secretary of War of the United States, authorizing the organization of a Regiment of Infantry in this State, is promulgated for the information and government of all whom it may concern:

WAR DEPARTMENT,
Oct. 25, 1861.

Governor:—The State of Rhode Island is hereby authorized to organize one Regiment of Infantry for its own defence and as a depot for recruiting her Regiments now in the service of the United States. It will be mustered into the service of the United States for three years' service, unless sooner disbanded by the Government; will be armed and equipped the same as the Army of the United States, and will be under the command of the Governor of the State, and of such officers as he may appoint and commission in accordance with the laws authorizing the enrolment and equipment of volunteers.

In case of necessity this force is to be used by the United States, under the officers as above appointed, but when, in the opinion of the Secretary of War, that necessity no longer exists, it shall again resume its position as a permanent force of Rhode Island, for the purpose above mentioned.

Very respectfully,
your obedient servant,
SIMON CAMERON, Secty of War.

To His Excellency, Governor William Sprague, Providence, R. I.

The Regiment authorized by the foregoing communication, will be organized as follows:

One Colonel.
One Lieutenant Colonel.
One Major.
One Adjutant.
One Regimental Quartermaster.
One Surgeon.
One Assistant Surgeon.
One Chaplain.
One Ordnance Sergeant.
One Sergeant-Major.
One Quartermaster Sergeant.
One Commissary Sergeant.
One Hospital Steward.
One Assistant Steward.
And ten Companies of eighty-three men each.

The formation of the Companies will be as follows:

One Captain.
One First Lieutenant.
One Second Lieutenant.
One First Sergeant.
Four Sergeants.
Eight Corporals.
Two Musicians.
One Wagoner.
Sixty-four Privates.

To permit each section of the State to be represented in the Regiment now called for, the following apportionment is made, and the Commander-in-Chief entertains the hope of a patriotic emulation among the several Corps of National Guards in the State, with the view to the early completion of the Company Rolls in their respective localities, believing that the State can properly and safely look to this recent organization for its full share of the labor now devolving upon her, and for a generous contribution of men for her defence:

Newport County—Two Companies, with Headquarters in city of Newport.
Bristol County—One Company, with Headquarters in Bristol.
City of Providence—Two Companies, with Headquarters in Providence.
Cumberland, Burrillville and Glocester—One Company, with Headquarters in Woonsocket.
Cranston, Johnston, Scituate and Foster—One Company, with Headquarters in Johnston.
North Providence and Smithfield—One Company, with Headquarters in Pawtucket.
Kent County—One Company, with Headquarters in East Greenwich.
Washington County—One Company, with Headquarters in Wickford.

Recruiting and other officers for these Companies, will be designated hereafter. All applications for commissions will be made direct to the Adjutant General of the Rhode Island Militia, and will receive the consideration of the Commander-in-Chief.

Enlistments for this Regiment will be for three years, unless sooner discharged by the Government; and the Regiment will perform service only within the State, and for its defence, unless by special order from the War Department, on the occurrence of events not now foreseen. The Regiment when organized will constitute a depot for the enlistment of Recruits for our Regiments now in the Federal service; and persons enlisting in these Regiments will be subject to the regulations, and entitled to the privileges of, the Home Regiment while remaining in the State.

The Commander-in-Chief relies upon the patriotism of the citizens of Rhode Island for a prompt response to the call that is now made upon them. The delicate relations of our National Government with some of the powers of Europe, and the apparent probability of complications and difficulties growing out of a blockade of the Southern ports, added to the serious aspect of affairs directly resulting from a rebellion of immense magnitude within our own National jurisdiction, and viewed in connection with the exposed condition of our own seaboard towns, call earnestly upon our people for immediate and energetic action. Not only is it desirable to complete the organization of the Regiment now authorized, without unnecessary delay, but also that we at once take measures to send to those Regiments already in the field, the number of men necessary to fill their ranks to the legal requirements.

By order of the Commander-in-Chief.
EDWARD C. MAURAN,
Adjutant General

Newspapers throughout the State will copy the above order six times, and forward bills and copies of the paper to this office.

GREAT INDIAN REMEDY

For Females.

Dr. Mattison's Indian Uterine Elixir.

This celebrated Female Medicine, possessing virtues unknown of anything else of the kind, and proving effectual after all others have failed, is designed for both *married and single ladies*, and is the very best thing known for the purpose, as it will bring on *the monthly sickness* in cases of obstruction, from any cause, and after all other remedies of the kind have been tried in vain.

OVER 2000 BOTTLES

have now been sold without a *single failure*, when taken as directed, and without the least injury to health in any case. ☞ It is put up in bottles of three different strengths, with full directions for using and sent by express, *closely sealed*, to all parts of the country.

Prices—Full strength, $10; half strength, $5; quarter strength, $3 per bottle.

☞ *Remember! This medicine is designed expressly for* OBSTINATE CASES, *which all other remedies of the kind have failed to cure; also that it is warranted as represented* IN EVERY RESPECT, *or the price will be refunded.*

☞ BEWARE OF IMITATIONS! None genuine and warranted unless purchased *directly of Dr. M., or at his office*, rear of No. 28 Union Street Providence, R. I.

Dr. Mattison's Diuretic Compound,

For Acute and Chronic Gonorrhœa.

This new *remedy* contains neither Balsam Copaiba, Spirits of Nitre, Cubebs, Turpentine, or any other nauseous drugs, but is an elegant vegetable liquid, pleasant to the taste and smell, grateful to the stomach, soothing, cleansing and healing in its operation, and speedily allaying all heat and irritation in the urinary passages. You, therefore, who have been swallowing down *Balsam Copaiba*, either in capsules or mixtures for months in succession, until with pale face and disordered stomach your breath and clothes are filled with its vile odor; throw away the disgusting mixtures, and send for a bottle of this *New Remedy*, which will not only cure you *at once*, but at the same time it will cleanse the system from the injurious effects of the various mixtures you have been taking so long.

☞ ONE BOTTLE, WHICH LASTS A WEEK, WILL OFTEN EFFECT A PERMANENT CURE.—Price $2.00.

Dr. Mattison's Syrup Anti-Syphilitique,

For Secondary, Tertiary and Hereditary Syphilis.

No remedy ever discovered has done what has been achieved by this. Under its use every form of constitutional syphilitic taint is speedily cured, and in a few weeks the subtle poison is completely eradicated from the system, and health and strength are permanently restored.

☞ *It was this remedy that cured in a few weeks a gentleman from the South, then stopping at Newport, and for which he presented Dr. M. with $450 besides his bill, after having been under the treatment of the most eminent physicians in Baltimore, Philadelphia and New York, for* FIVE YEARS.

One bottle, which lasts a month, will often effect a perfect cure. Price, $10; half size, $6.

Dr. Mattison's Nerve Invigorator.

For Nervous Debility, Loss of Power, Impotency, Confusion of Thought, Loss of Memory, Irritable Temper, Gloomy Apprehensions, Despondency and Melancholy, which may end in Loss of Reason.

This new remedy for that fearful train of mental and physical evils arising from venereal excesses, and secret habits of the young, is composed of the most soothing, strengthening and invigorating medicines to be found in the whole Vegetable Kingdom, which, in combination, form the most perfect Antidote for this obstinate and distressing class of maladies ever yet discovered.—It has now been sent to nearly every State in the Union, relieving the untold sufferings of hundreds who have never seen the inventor, restoring them to comparative health, strength and happiness. *Price*—Quart bottle, which last a month, $10; half size, $6.

☞ These four GREAT REMEDIES are the result of over twenty years' study and practice, and as now prepared they are known to be the *very best* for their respective purposes, and I am therefore induced to make them public for the mutual benefit of myself and the sick, who otherwise could never avail themselves of their benefits. They are all warranted as represented, in every respect, or the *price will be refunded.*

☞ Prepared and sold ONLY at DR. MATTISON'S REMEDIAL INSTITUTE FOR SPECIAL DISEASES rear No. 28 Union street, Providence, R. I., and sent by express, *secure from observation*, to all parts of the United States.

A WORD OF CAUTION.

☞ It has been estimated that over *Two Hundred Thousand Dollars* are paid to swindling quacks annually in New England alone; and that, too, without *any benefit* to those who pay it. All this comes from trusting, *without inquiry*, to men who are alike destitute of honor, character or skill, and whose *only* recommendation is *their own* false and extravagant *assertions*, in praise of *themselves*. The only way to avoid imposition is to take no man's word, *no matter what his pretensions are*, but MAKE INQUIRY. It will cost you nothing, and may save you many regrets; for, as advertising physicians in nine cases out of ten are *bogus*, there is no safety in trusting *any of them* unless you know *who* and *what* they are.

Dr. M. will *send free*, by enclosing one stamp as above, a Pamphlet on DISEASES OF WOMEN, and on *Private Diseases* generally; giving full information, with *the most undoubted references and testimonials* without which no advertising physician, or medicine of this kind is deserving of ANY CONFIDENCE WHATEVER.

☞ Orders by mail promptly attended to. Write your address plainly, and direct to DR. MATTISON, as above. d18-1y

Two and a half o'clock.

Washington News.

NEW YORK, Jan. 4.

Steamer Northern Light from Aspinwall arrived this morning. She brings $711,000 in treasure. Sailed from Valparaiso Nov. 23d, Morning Light, San Francisco.

The Tribune's Washington despatch says intelligence received this evening from Louisville, says up to the latest advices from Gen. Buels army no engagement had taken place between the Union forces and the Rebels. It was expected, however, that little time would elapse before either a decisive battle would be fought or some rapid running done.

The rebels are reported to have taken their position and the Unionists were within one and half days march of them.

The Richmond Enquirer of the 30th says Wm. M. Brown, an Englishman formerly Editor of N. Y. Journal of Commerce has been commissioned as acting Secretary of State during the temporary absence of R. M. T. Hunter. This confirms the report that Hunter with Breckinridge, had sailed from Halifax for Europe

Richmond papers of the 28th says Charleston was fired in several places on Sunday evening last. Several wooden buildings of small value were destroyed.

It is almost certain that the English will occupy Matimoras with a design, its is feared, of opening communication with the Rebel States by way of Brunswick, exporting cotton and importing contraband goods.

The Norfolk Day Book of Jan. 1st contains the following telegram:

NASHVILLE, Dec. 30.

A special despatch to the Louisville Courier from Hopkinsville, says Col. Forests Cavalry about 300 strong and the Union Cavalry of about the same number met at Sacramento on Green River Saturday, when a skirmish ensued. About fifty Unionists were killed wounded and taken prisoners. Our loss consists of Capt. Clay Merriweather of Louisville and one private killed and wounded. The enemy fled in great confusion.

The Herald's despatch says a fight occurred on the 2nd inst., between the Union Gunboat's Yankee and Anacosta of the Potomac Flotilla and the rebel Battery at Cockpit Point. Missile from a rifle gun of the Battery struck the Yankee doing small damage. Several of the projectiles from the Gunboats took effect in the midst of the battery.

The Times despatch says six rebel prisoners sent to headquarters to-day were taken by our pickets on the left wing. Their information is deemed of high value. The rebels are expecting an advance of our Army along the whole line. They are more demoralized than ever before, by discords among public men.

Gen. Magruder it is believed has been relieved of command at Yorktown and Gen. Wise is expected to assume command there or at Frederick.

There is a well founded belief of serious disaffection to the Rebel Government at Charleston, amounting almost to an insurrection, by reason of the apparent abandonment of the South Carolina coast to the destruction of property which the owners have willingly consigned to flames.—They have destroyed not less than $10,000,000 worth of cott on, which at last accounts was deplored as they supposed the Blockade about to be raised by England, and they might have shipped and sold it.

They were holding Jeff Davis responsible for these disastrous losses, and many citizens were bold enough to say that the old Government was better than the new.

FREDERICK, Jan. 2d.

Official advices from Williamsport say that a detachment of the Mass. 13th and of the Md. 1st participated in a route of the Rebel forces, Tuesday.

Our men buried 29 of the enemy and it is supposed many afterwards died of their wounds. Our loss according to private information was 5 wounded and none killed.

NEW YORK, 4th.

Advices from S. America says the Ecquadorian Government is preparing to repel the anticipated attack from Peru.

In Peru the elections were all gained by the Ministerial party.

In Bolivia there had been a revolution putting down President Acha, and electing Senor Frederick. The people took no part, the election being consummated by the Army.

The Chilian Government has contracted with Henry Meiggs to complete the Valparaiso and Santiago.

From Fort Monroe.

FORTRESS MONROE, Jan. 3.
via Baltimore 4.

Steamboat Geo. Washington left at 11 this a. m. and proceeded up James River, 9 miles beyond Newport News, where the rebel steamer Northampton was met with Union prisoners from Richmond.

They stepped aboard under the protection of the National Flag, as the roll of their names was called. Such happy looking men are seldom seen; cheer after cheer arose from each boat as they approached and the band of the 4th Artillery played Sweet Home, which added to the enthusiasm. As the boat passed Newport News the crew of the Frigate Cumberland and Congress manned the rigging and the troops at Camp Butler crowded the beach and wharves, and sent over the water their shouts of welcome.

The steamer Gen. Washington about 5 and half o'clock, and the Baltimore boat, which was detained for the purpose took the released prisoners to Baltimore. The number released is 240, almost all were taken at Bull Run.

Below is a correct list from the official copy. All those whose rank is not given are privates. N. A. Perry whose name appears in the following is not among the number who arrived, John Eldridge a shipwrecked fisherman comes in his place. Perry will arrive soon however. Sloop McDonnel arrived via Norfolk a few days since.

The prisoners left Richmond at 7 in the morning and all needing clothing were immediately supplied here by Qr. Master's Department.

PROF. L. MILLER'S

HAIR INVIGORATOR.

AN EFFECTIVE, SAFE AND ECONOMICAL COMPOUND.

FOR RESTORING GRAY HAIR to its original color, without dyeing, and preventing Hair from turning grey.

FOR PREVENTING BALDNESS, and curing it, when there is the least particle of vitality or recuperative energy remaining.

FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections of the Scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequalled gloss and brilliancy, making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unequalled preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at present in use. It cleanses the head and scalp from *dandruff and other cutaneous diseases*, causes the hair to grow luxuriantly, and gives it a rich, soft, glossy and flexible appearance, and also where the hair is loosening and thinning, it will give strength and vigor to the roots, and restore the growth to those parts which have become bald, causing it to yield a *fresh covering of hair*.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the *hair from turning gray* until the latest period of life; and in cases where the hair has already changed its color, the use of the Invigorator will with certainty *restore it to its original hue*, giving it a dark, glossy appearance. As a perfume for the toilet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it affords in *dressing the hair*, which when moist with the Invigorator can be dressed in any required form so as to preserve its place, whether plain or in curls—hence the great demand for it by the ladies as a *standard toilet article* which none ought to be without, as the price places it within the reach of all, being

ONLY TWENTY-FIVE CENTS

per bottle, to be had at all respectable druggists and perfumers.

L. MILLER would call the attention of Parents and Guardians to the use of his Invigorator, in cases where the children's Hair inclines to be weak. The use of it lays the foundation for a *good head of hair*, as it removes any impurities that may have become connected with the scalp, the removal of which is necessary both for the health of the child, and the future appearance of its Hair.

CAUTION.—None genuine without the fac simile LOUIS MILLER being on the outer wrapper also, L. MILLER'S INVIGORATOR, N. Y. blown in the glass.

THE SPECIFIC PILL.

A SPECIFIC REMEDY FOR

Spermatorrhœa or Seminal Weakness, and Genital Irritability in either Sex.

This Malady, the *direful consequence* of which are too well known to require more than a bare allusion to them, is one of the most insidious, and therefore dangerous, of all the long catalogue of human ills. It saps the very springs of life, rapidly undermines the constitution, and sinks the unhappy victim into imbecility and a premature grave! From one to six boxes of the SPECIFIC PILL are sufficient to effect a permanent cure in the MOST AGGRAVATED CASES, whether *Constitutional*, or arising from *Abuse* or *Excesses*.

MEDICAL TESTIMONY.

"We believe it to be, in the treatment of *Spermatorrhœa*, as near a SPECIFIC as any medicine can be."—B. KEITH, M. D. [*Am. Jour. of Medical Sciences.*]

"I have found them *all that could be desired*. Their effect WAS BEEN TRULY WONDERFUL. I used them in a case of *Spermatorrhœa of long standing* which has been under treatment *for years*. I think three boxes will complete the cure."—E. P. DICKEE, M. D.

IT WILL RESTORE THE WEAK, REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY AND VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

AND

BLOOD RENOVATOR.

Is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhilarating and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all.

So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *so as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach* and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects; and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure o

CONSUMPTION, BRONCHITIS, INDIGESTION, DYSPEPSIA, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL CALLED FEMALE WEAKNESSES AND IRREGULARITIES.

THERE IS NOTHING ITS EQUAL.

Also, Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences, and cure the diseases at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon change of climate and water.

As it prevents costiveness, strengthens the digestive organs it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out door exercise should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety!

There is no mistake about it!!

THE CORDIAL IS ALL WE CLAIM FOR IT!! MOTHERS TRY IT!!

And to you we appeal, to detect the illness or decline not only of your daughters before it be too late, but also your sons and husbands, for while the former from false delicacy, often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they, too, would travel in the same downward path until it is too late to arrest their fatal fall. But the mother is always vigilant, and you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, proprietor, No. 444 Broadway, New York, and No. 114 Market Street, St. Louis, Mo., and sold by all good druggists. Price one dollar per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have a doubt.

Prof. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resist the assault of disease. It is a chemical compound so skilfully combined that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic, composed exclusively of vegetable matter it is absolutely beneficial and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Palpitation of the Heart, Failing of the Womb, and other delicate diseases to which woman is subject, for Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption and a host evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald*:

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the Classics that Pysche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the lid of the box we removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof WOOD'S Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health, so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Giddiness, Neuralgia, Palpitation of the Heart, &c., will find here an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt the best tonic Cordial in the world. To those who are suffering from General Debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial none will be for a day without it.—*New York Leader*.

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of nature, and thus sooth the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. WOOD'S Restorative Cordial and Blood Renovator. Hence, it is perfectly adapted to old and young. Reader, try it. Thousands have already done so, and the testimony is universal in its favor.—*New-York Atlas*.

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR, for the cure of General Debility or Weakness arising from any cause; also, Dyspepsia, Nervousness, Night Sweats, Incipient Consumption, Liver Complaints, Biliousness, Loss of Appetite, Female Weakness in all stages; also to prevent the contraction of disease, is certainly the best and most agreeable Cordial tonic and Renovator ever offered to the afflicted, and so chemically combined as to be the most powerful tonic ever known to medical science. Reader, try it. *It will do you good.* We have no hesitation in recommending it, since we know it to be a *safe, pleasant and sure* remedy for the diseases enumerated.—*New York Dispatch*.
